Projects

Vuedit (React/Redux, Express) [Github](#)

Clone of Reddit.

- Single page application
- Leverages client-side validations to prevent unnecessary server requests

Next Step (React/Redux, Express) [Github](#) [Live](#)

Fullstack App that allows users to answer and keep interview questions, and have users give feedback on those answers.

- Single page fullstack app
 - Manipulates DOM with React to provide instant visual feedback
 - Redux implemented to manage state required over all components of the app
-
